This book is a follow up study after 'The Power of Archetypes,' that deepens awareness and understanding of Jung's Archetypes much further than it's original and poses the question are they still the same in our modern day? How much are we influenced by our unconscious Anima and Animus, how integrated have they become in our present day gender roles. What do we as individuals need to consider to be healthy and whole, to balance both yin and yang as we honour our Archetypes and reveal them through myths, dreams and stories. The book also uses artistic illustration to symbolise the Archetypla figures alongside poems and challenging questions. It is made for kindle fire and personal development work, I hope you enjoy this boo,
