Mysticism: Its History and Challenge Bruno Borchert

Mystical experience is not really understood in our modern Western culture, but we have a rich history and tradition that can be traced from remote ages to the present day. It is a phenomenon common to all religions and races, differing in manifestation, but sharing a similar foundation--the realization from personal experience that all things are interdependent, that the source is One. The mystical experience is often brief, immediate, maybe mysterious--a last experience that brings all-embracing emotion (love) into the bounds of concrete reality. Bruno Borchert brings mysticism into sharp focus by exploring ideas and concepts from world religions and explaining Christian mystics in history, in perspective, and through art. He takes us from Zoroaster to European alchemists, explores the Hellenistic world, the feminine world-view, and the experience of God shared by saints and well-known mystics such as St. Theresa and St. Francis. Modern approaches explored by psychologists like Jung and Maslow, and the contemporary search for mystical love make this a necessary book for people who want to understand the spiritual path.
