Odd Nerdrum: Paintings, Sketches, and Drawings Richard Vine

With a huge cult following among lovers of figurative painting, outsider art fans and students, Norwegian artist Odd Nerdrum has carved out a unique niche in the world of contemporary art. With his Old Master style and his often apocalyptic subject matter, Nerdrum rejects the tropes of Modernism in favor of an emotionalism which, when combined with his remarkable painterly talents, produces works that are not only visually arresting, but which also call into question the very foundations of contemporary art. *Odd Nerdrum: Sketches, Drawings and Paintings* brings together the recent work completed since the publication of *Storyteller and Self-Revealer* in 1998, as well as earlier work, including, for the first time, an extensive selection of drawings and sketches. At 400 pages, with over 200 color illustrations, this volume is the most comprehensive book available on the work of one of the world's most popular and idiosyncratic artists.
