Pathology and Genetics of Tumours of Endocrine Organs (IARC WHO Classification of Tumours)

The International Agency for Research on Cancer

This volume covers tumors of the pituitary, the thyroid and parathyroid, the adrenal gland, the endocrine pancreas, and inherited tumor syndromes. Each entity is extensively discussed with information on clinicopathological, epidemiological, immunophenotypic and genetic aspects of these diseases. The book is an authoritative, concise reference, prepared by 150 authors from 20 countries. It contains more than 500 color photographs, numerous MRIs, ultrasound images, CT scans, charts and more than 2900 references.

This book is in the series commonly referred to as the "Blue Book" series.
