Postcolonial Urbanism: Southeast Asian Cities and Global Processes

A common assumption about cities throughout the world is that they are essentially an elaboration of the Euro-American model. Postcolonial Urbanism demonstrates the narrowness of this vision. Cities in the postcolonial world, the book shows, are producing novel forms of urbanism not reducible to Western urbanism. Despite being heavily colonized in the past, Southeast Asia has been largely ignored in discussions about postcolonial theory and in general considerations of global urbanism. An international cast of contributors focuses on the heavily urbanized world region of Southeast Asia to investigate the novel forms of urbanism germinating in postcolonial settings such as Indonesia, Thailand, Singapore, Hanoi, and the Philippines. Offering a mix of theoretical perspectives and empirical accounts, Postcolonial Urbanism presents a panoramic view of the cultures, societies, and politics of the postcolonial city.
