Reinterpreting Russian History: Readings 860-1860s

The first comprehensive reader in Russian history in almost two decades, this collection includes primary and secondary material, much of which has never before been published in English, reflecting the latest scholarship on the subject. Supplemented by over 70 illustrations, selections are introduced by placing them in the context of the work's major themes: state structure, the economy, society, and culture and everyday life. From the multi-ethnic peopling of early Russia to the elite society of the nineteenth century, original sources illuminate such topics as state-building, government and politics, the peasantry and the countryside, clergy and religious communities, and women and gender, making this comprehensive text vital for students of Russian history.
