A 24-year-old computer hacker sporting an assortment of tattoos and body piercings and afflicted with Asperger Syndrome or something of the like has been under state guardianship in her native Sweden since she was thirteen. She supports herself by doing deep background investigations for Dragan Armansky, who, in turn, worries the anorexic-looking Lisbeth Salander is ""the perfect victim for anyone who wished her ill."" Salander may look fourteen and stubbornly shun social norms, but she possesses the inner strength of a determined survivor. She sees more than her word processor page in black and white and despises the users and abusers of this world. She won't hesitate to exact her own unique brand of retribution against small-potatoes bullies, sick predators, and corrupt magnates alike.
