Robotics Research: The 14th International Symposium ISRR (Springer Tracts in Advanced Robotics)

This volume presents a collection of papers presented at the 14th International Symposium of Robotic Research (ISRR). ISRR is the biennial meeting of the International Foundation of Robotic Research (IFRR) and its 14th edition took place in Lucerne, Switzerland, from August 31st to September 3rd, 2009.

As for the previous symposia, ISRR 2009 followed up on the successful concept of a mixture of invited contributions and open submissions. Half of the 48 presentations were therefore invited contributions from outstanding researchers selected by the IFRR officers, and half were chosen among the 66 submissions after peer review. This selection process resulted in a truly excellent technical program which, we believe, featured some of the very best of robotic research.

Out of the 48 presentations, the 42 papers which were finally submitted for publication are organized in 8 sections that encompass the major research orientations in robotics: Navigation, Control & Planning, Human-Robot Interaction, Manipulation and Humanoids, Learning, Mapping, Multi-Robot Systems, and Micro-Robotics. They represent an excellent snapshot of cutting-edge research in robotics and outline future directions.

From reader reviews:

Daryl Biddle:

The actual book Robotics Research: The 14th International Symposium ISRR (Springer Tracts in Advanced Robotics) will bring one to the new experience of reading any book. The author style to spell out the idea is very unique. If you try to find new book to see, this book very acceptable to you. The book Robotics Research: The 14th International Symposium ISRR (Springer Tracts in Advanced Robotics) is much recommended to you you just read. You can also get the e-book through the official web site, so you can more readily to read the book.

Allison Sala:

Robotics Research: The 14th International Symposium ISRR (Springer Tracts in Advanced Robotics) can be one of your starter books that are good idea. We recommend that straight away because this book has good vocabulary that can increase your knowledge in terminology, easy to understand, bit entertaining but delivering the information. The writer giving his/her effort to get every word into enjoyment arrangement in writing Robotics Research: The 14th International Symposium ISRR (Springer Tracts in Advanced Robotics) but doesn't forget the main position, giving the reader the hottest as well as based confirm resource details that maybe you can be among it. This great information can drawn you into brand new stage of crucial imagining.

Douglas Ayer:

Book is one of source of understanding. We can add our understanding from it. Not only for students but native or citizen require book to know the change information of year to year. As we know those books have many advantages. Beside all of us add our knowledge, can bring us to around the world. From the book Robotics Research: The 14th International Symposium ISRR (Springer Tracts in Advanced Robotics) we can have more advantage. Don't that you be creative people? Being creative person must prefer to read a book. Just simply choose the best book that suitable with your aim. Don't always be doubt to change your life with that book Robotics Research: The 14th International Symposium ISRR (Springer Tracts in Advanced Robotics). You can more attractive than now.

Rene Moore:

Reading a publication make you to get more knowledge from it. You can take knowledge and information coming from a book. Book is written or printed or highlighted from each source that will filled update of news. In this particular modern era like right now, many ways to get information are available for a person. From media social like newspaper, magazines, science book, encyclopedia, reference book, novel and comic. You can add your understanding by that book. Are you ready to spend your spare time to spread out your book? Or just seeking the Robotics Research: The 14th International Symposium ISRR (Springer Tracts in Advanced Robotics) when you essential it?
