**Stranded on a frozen and remote planet, Ethan Frome Fortune searches for a way back to civilization**

Icy, desolate, and sharply carved by hurricane-force winds, Tran-ky-ky is a terrible place to crash-land. But a botched kidnapping aboard the interstellar transport *Antares* sends Ethan Frome Fortune and a handful of his fellow travelers tumbling toward the stormy planet. Stranded and cut off from civilization, the castaways struggle to survive.

In this page-turning trilogy, Fortune confronts vicious predators (even the plants want to make a meal of him) and forges an alliance with a native Tran. As he searches for a way off Tran-ky-ky, he helps the Tran gain admission to the Humanx Commonwealth and learns about their troubled history. Just as Fortune accepts that he'll never escape the harsh planet and acclimates to its relentless winter, he learns that scientists have detected rising temperatures in the atmosphere. This sinister change leads Fortune to a thrilling and unexpected final adventure.
