Wordsworth and Coleridge: Promising Losses assembles essays on Wordsworth and Coleridge spanning the last thirty years. The collection argues for an element of resistance and scarcity intervening in how these two writers grasp the resources of imagination at crucial moments in their output. Not simply a disillusionment or lack of impetus, this sense of obstacle becomes an acute prompting towards new ways in which they struggle to assimilate and internalize the intricacies of Romantic vision as such. The difficulty of sustaining imagination bears with it distinctive challenges and after-effects, ones which incite the imagination to differentiate and improvise its own reserves of resilience.
