Biomedical Informatics Andreas Holzinger

Medical Informatics is defined as the interdisciplinary field that studies and pursues the effective use of biomedical data, information and knowledge for scientific inquiry, problem solving, and decision making, motivated by efforts to improve human health. To emphasize the broad character it is called Biomedical Informatics. The aim of this course is to provide a student with a broad overview with focus on data, information and knowledge. The course consists of the following 12 lectures: 1. Introduction: Computer Science meets Life Sciences, challenges and future directions; 2. Back to the future: Fundamentals of Data, Information and Knowledge; 3. Structured Data: Coding, Classification (ICD, SNOMED, MeSH, UMLS); 4. Biomedical Databases: Acquisition, Storage, Information Retrieval and Use; 5. Semi structured and weakly structured data (structural homologies); 6. Multimedia Data Mining and Knowledge Discovery; 7. Knowledge and Decision: Cognitive Science and Human-Computer Interaction; 8. Biomedical Decision Making: Reasoning and Decision Support; 9. Intelligent Information Visualization and Visual Analytics; 10. Biomedical Information Systems and Medical Knowledge Management; 11. Biomedical Data: Privacy, Safety and Security 12. Methodology for Information Systems: System Design, Usability and Evaluation

Solomon Steward:

What is your hobby? Have you heard that question when you are a scholar? We believe that that question was given by a teacher to the students. Many kinds of hobbies, everybody has a different hobby. Therefore you know that a little person such as reading or examining becomes their hobby. You need to understand that reading is very important and a book is the issue. A book is an important thing to provide you with knowledge, except your current teacher or lecturer. You find good news or updates with regards to something by book. Many types of books that you can choose to use as your object. One of them is actually Biomedical Informatics.

Cynthia Johnson:

Reading a review makes you get more knowledge from that. You can take knowledge and information from a book. A book is composed or printed or descriptive from each source that will be filled with updates of news. With this modern era like today, many ways to get information are available for a person. From media social similar to newspaper, magazines, science e-book, encyclopedia, reference book, fresh and comic. You can add your knowledge by that book. Are you going to spend your spare time to open your book? Or just looking for Biomedical Informatics when you need it?
