Lev Shestov

Lev Shestov - Athens and Jerusalem Lev Shestov

Athens and Jerusalem examines the dichotomy between freedom and reason, and argues that reason be rejected in the discipline of philosophy. Furthermore, it adumbrates the means by which the scientific method has made philosophy and science irreconcilable, since science concerns itself with empirical observation, whereas (so Shestov argues) philosophy must be concerned with freedom, God and immortality, issues that cannot be solved by science.
