**Case Studies in Assessment of Students with Disabilities** Mary Konya Weishaar, Victoria G. Scott

*Cases in Special Education Assessment* enhances any traditional assessment text by bridging the gap between learning how to administer tests in an assessment course and understanding the practical aspects of administering assessments to a real child in a school. This casebook goes beyond providing the student with the technical “know-how” to administer and interpret a particular test by providing a much-needed context for the factors taken into considerations in the process of effective assessment.
