Teaching Leadership (Studies in Italian Culture--Literature in History)

Leadership studies is booming on American campuses, but many are skeptical - is this new field more than a gimmick to amuse students and woo donors? The authors of the essays in this volume are as skeptical as any critics of the field but they see hope for Leadership studies if the field can focus more on Leadership as a process of inquiry than as a set of techniques. They seek in these essays to restore the academic traditions of inquiry to the study of Leadership. They take risks, they criticize the sacred texts (like Burns' *Leadership* and Rost's *21st Century*), and they make the signal contribution to the field this decade.
