**Getting Started with MariaDB** Daniel Bartholomew

## In Detail

In the modern age, storing data is of paramount importance, and this is where databases enter the picture. MariaDB is a relatively new database that has become very popular in a short amount of time. It is a community-developed fork of MySQL and it is designed to be an enhanced and backward compatible database solution.

Getting Started with MariaDB is a practical, hands-on, beginner-friendly guide to installing and using MariaDB. This book will start with the installation of MariaDB before moving on to the basics. You will then learn how to configure and maintain your database with the help of real-world examples.

Getting Started with MariaDB literally starts at square one by walking you through the basics of what you need to know about MariaDB. This book will teach you how to install MariaDB as well as how to configure it. Following that, you will then be shown how to secure MariaDB. This book will also teach you common commands and will help you learn how to maintain a MariaDB server.

## Approach

A practical, hands-on, beginner-friendly guide to installing and using MariaDB.

## Who this book is for

Getting Started with MariaDB is for anyone who wants to learn more about databases in general or MariaDB in particular. No prior database experience is required. It is assumed that you have basic knowledge of software installation, editing files with a text editor, and using the command line and terminal.

That Getting Started with MariaDB can give you a lot of pals because by you checking out this one book you have point that they don't and make anyone more like an interesting person. This kind of book can be one of one step for you to get success. This reserve offer you information that probably your friend doesn't learn, by knowing more than other make you to be great persons. So , why hesitate? Let me have Getting Started with MariaDB.

#### **Cathy Kerby:**

As a college student exactly feel bored in order to reading. If their teacher requested them to go to the library in order to make summary for some book, they are complained. Just small students that has reading's heart or real their interest. They just do what the instructor want, like asked to the library. They go to at this time there but nothing reading seriously. Any students feel that reading through is not important, boring and also can't see colorful pictures on there. Yeah, it is for being complicated. Book is very important for yourself. As we know that on this period of time, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore , this Getting Started with MariaDB can make you experience more interested to read.
