Hesiod, The Homeric Hymns and Homerica

Hesiod, Homer

Hesiod, The Homeric Hymns and Homerica Hesiod, Homer

This edition contains the collected works of Hesiod including Works and Days, The Shield of Heracles, The Theogeny as well as Homer's Hymns, Epigrams and fragments of the Epic Cycle. Hesiod was a Greek oral poet generally thought by scholars to have been active between 750 and 650 BC, around the same time as Homer. His is the first European poetry in which the poet regards himself as a topic, an individual with a distinctive role to play. Ancient authors credited him and Homer with establishing Greek religious customs. Modern scholars refer to him as a major source on Greek mythology, farming techniques, early economic thought (he is sometimes identified as the first economist), archaic Greek astronomy and ancient time-keeping. In the Western classical tradition, Homer is the author of the Iliad and the Odyssey, and is revered as the greatest of ancient Greek epic poets. These epics lie at the beginning of the Western canon of literature, and have had an enormous influence on the history of literature.
