Leadership and Women in Statistics

Leadership and Women in Statistics

Learn How to Infuse Leadership into Your Passion for Scientific Research

Leadership and Women in Statistics explores the role of statisticians as leaders, with particular attention to women statisticians as leaders. By paying special attention to women's issues, this book provides a clear vision for the future of women as leaders in scientific and technical fields. It also shows how emerging and current leaders of both genders in many disciplines can expand their leadership potentials.

Featuring contributions from leadership experts and statisticians at various career stages, this unique and insightful text:

- Examines leadership within the roles of statistician and data scientist from international and diverse perspectives
- Supplies a greater understanding of leadership within teams, research consulting, and project management
- Encourages reflection on leadership behaviors, promoting both natural and organizational leadership
- Identifies existing opportunities to foster creative outputs and develop strong leadership voices
- Includes real-life stories about overcoming barriers to leadership

Leadership and Women in Statistics explains how to convert a passion for statistical science into visionary, ethical, and transformational leadership. Although the context focuses on statistics, the material applies to almost all fields of endeavor. This book is a valuable resource for those ready to consider leadership as an important element of their careers, and for those who are already leaders but want to deepen their perspectives on leadership. It makes an ideal text for group leadership training as well as for individual professional development.

Jane Pelley:

As a pupil exactly feel bored to be able to reading. If their teacher requested them to go to the library or make summary for some publication, they are complained. Just minor students that has reading's soul or real their passion. They just do what the educator want, like asked to the library. They go to generally there but nothing reading significantly. Any students feel that looking at is not important, boring and also can't see colorful pictures on there. Yeah, it is to become complicated. Book is very important for you. As we know that on this time, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore this Leadership and Women in Statistics can make you really feel more interested to read.
