The Restoration and Management of Derelict Land: Modern Approaches

The Restoration and Management of Derelict Land: Modern Approaches

A broad discussion of modern restoration and the management needed after restoration. It deals with relevant topics such as restoration ecology; restoration planning; ecological and ecotoxicological risk assessment; management and adaptive management; restoration in the broader context of sustainable development; and case studies and examples related to the Asian region. Major emphasis is placed on the Asian region, but the techniques described in the book can also be applied to other regions. The work should serve as a reference for undergraduate and postgraduate students, professors, decision-makers and engineers in environmental science and management.
