“It’s okay, Jennifer,” Mr. Wright says. “Haley and Desmond told me everything.”

Jennifer and Blake Simmons have recently recovered from a rough patch in their marriage — one that threatened to almost end the entire thing. A lack of forethought, followed by a tense couple of weeks, has left them both reeling. Now, a mere month after the dust has settled, they find themselves back to normal ... well, almost.

You see, Jennifer hasn’t been entirely truthful with Blake about what happened that one night when they both sought solace in somebody else’s company. And this little mistake of hers has been coming back to haunt her, try as she might to make it go away.

In the meantime, Jennifer finds herself in a new position at her office, and one that brings her to be working directly alongside her boss, Sebastian Wright. The self-made millionaire certainly has an air of confidence about him — something that Jennifer had noticed the first time they met. Now that she’s spending so much time with him, will that power difference take her and Blake down a path that both of them want to travel? And if it does, will Jennifer come out the same woman in the end?
