Professor Stuart has provided a unique research and reference tool covering a wide range of topics relating to Indian history. In his introduction Stuart discusses the scope and purpose of the volume and describes the difficulties involved in obtaining accurate and comprehensive information on Indian affairs, especially prior to the twentieth century. Each chapter assesses the historical significance of the available data and supplies statistical information in table form as well as suggestions on further reading and other avenues of research. Chapter topics include land base and climate, population, removal and relocation, urbanization, vital statistics, health, education, employment, income, resources and economic development, and the activities of the federal government.
